

Health Professions Exploration Program (HPEP)

You are invited to participate in an exciting health care mentorship program hosted by MUSC's College of Health Professions.

Program Dates: **December 13, 2024- April 26, 2025**

Application Deadline: **October 30th**

The application is live and can be accessed via the QR code below.

Health Professions Exploration Program (HPEP) is a healthcare exposure and mentorship program for high school and undergraduate college students interested in the health professions. As a participant, you will be paired with a current College of Health Professions student who will act as your mentor. Mentors are available from the following programs:

- > BS in Healthcare Studies
- > Cardiovascular Perfusion
- > Health Administration
- > Occupational Therapy
- > Physician Assistant Studies
- > Physical Therapy
- > Speech-Language Pathology

You can expect to participate in sessions on the MUSC campus once a month on Saturdays. During the sessions, you will learn about the health professions, gain insight into preparing for graduate school, and participate in career planning and professional development activities.
